AB Cotspin Bags Major 500 MT Order Worth ₹14.8 Crore for Cotton Yarn, Expanding Eco-Friendly Product Range

Bathinda – 8th January, 2025 – A B Cotspin India Ltd. (NSE: ABCOTS), a leading textile manufacturer with over 25 years of industry expertise, announces a landmark achievement by securing a 500 MT order worth ₹14.8 crore for Cotton Yarn. This substantial order reinforces the company's market position as a trusted supplier of high-quality cotton yarn, knitted fabrics, and eco-friendly products.

A B Cotspin's Recycling Initiative "From Waste to Best":

The company is planning to optimum use of natural resources, reducing waste and prioritize "Recycling". The company has incorporated recycling into its operations by utilizing recycled cotton and cloth (both pre & post-consumed) to produce various types of Yarn and Garments. This initiative aligns with **Global Recycle Standards (GRS)**, promoting sustainability, reducing environmental impact, and expanding the company's diverse product range ensuring Greener and resource-efficient work environment.

- **The Unit is recycling Cotton Waste, Waste Cotton Yarn, Pre & Post Consumer fabrics for making Yarns & Fabrics avoiding dyeing process to make different coloured yarns directly from coloured waste. This invariably reduces generation of waste water which is a big step towards environment friendly manufacturing practices. We are working on selecting State of Art Technology to further enhance recycling of different wastes.**
- **The company is recycling cotton waste generated from cotton spinning mills, waste cotton yarn, pre & post-consumer Fabrics to make garments and House furnishing fabrics.**
 - Pre consumer waste - The waste derived before they reach consumer are generally clean and need recycling to be put again in production like cotton wastes from spinning, yarn waste, trimmings, are recycled to make Garments.
 - Post Consumer waste - This waste refers to the clothing that have been used, worn out by consumers, disposed of, from active use like Garments, Upholstery, Towels, and House hold items, are recycled to make House furnishings.

The wastes from Garment factories in the shape of cuttings, trimmings are collected, and then sorted colour wise, recycled to make coloured fibres which are then directly spun into coloured yarns thus avoiding Dyeing process. This invariably reduces the generation of waste water which is a big step towards environment friendly manufacturing practices. We are working on selecting state of art technology to further enhance recycling of different wastes.

A B Cotspin's Rainwater harvesting Initiative:

Rainwater harvesting is actively practiced, ensuring that rainwater is used for charging the earth rather than being wasted. Additionally, domestic sewage water is not wasted but reused after treatment inside the factory premises for tree plantation and greenery contributing towards sustainability efforts.

A B Cotspin's Sustainable Energy Initiative:

The Company utilizes solar energy, with a currently Installed Capacity of 2800 KW. Furthermore, an additional 331 kilowatts of Solar Plant is set to become operational by January 2025. These efforts collectively contribute in making a green and environment friendly Unit, reflecting a strong commitment to resource conservation and ecological responsibility.

The Company estimates above initiatives will lead to substantial increase in Sales & PAT.

The company's certifications, including **GOTS (Global Organic Textile Standards)**, **GRS (Global Recycle Standards)** and **OCS (Organic Content Standards)**, further reinforce its dedication to sustainable and eco-friendly manufacturing practices.

In addition to above, the company has been expanding its product portfolio by utilizing its yarn for in-house fabric and readymade garment production.

Commenting on this achievement Mr. Deepak Garg, Managing Director of the A B Cotspin India said, "We are delighted to announce this milestone order of 500 metric tons valued at ₹14.8 crore for Cotton Yarn, which underscores the growing demand for our high-quality cotton yarn and eco-friendly textile solutions. This achievement not only strengthens our position in domestic and international markets but also significantly contributes to increasing our sales and profitability. At the core of our operations is a steadfast commitment to sustainability and innovation—whether through advanced recycling practices, renewable energy utilization, or resource optimization. As we expand our product range and enhance operational efficiencies, we remain focused on driving long-term growth while making a positive impact on the environment and the textile industry."
