AB Cotspin bags Order worth around ₹13 Crore for 450 MT of Cotton Yarn

Bathinda - 12th May, 2025 - A B Cotspin India Ltd. (NSE: ABCOTS), a leading textile manufacturer with over 25 years of industry expertise, announces a landmark achievement by securing a Order worth around **₹13 crore** for 450 MT of Cotton Yarn. This substantial order reinforces the company's market position as a trusted supplier of high-quality cotton yarn, knitted fabrics, and eco-friendly products.

India's cotton yarn industry is projected to achieve a revenue growth of 7-9% this fiscal year, a marked improvement from the modest 2-4% growth recorded last year.

According to rating agency Crisil Ratings, this improvement will be mainly driven by a rebound in export demand and stable domestic consumption. Growth in volumes will be the primary driver, supported by a slight increase in yarn prices. Operating margins, which recovered last year, are projected to improve further by 50-100 bps this fiscal. This will be supported by steady cotton yarn price spreads and improved cotton availability through procurement by the Cotton Corporation of India (CCI).

Gautam Shahi, Director at CRISIL Ratings, explains, "This recovery will benefit Indian spinners, who can take advantage of steady domestic cotton production and reclaim market share. Also, India's competitiveness in textile exports to the US remains strong, especially with higher tariffs imposed on Chinese exports. This will support 6-8% revenue growth in downstream segments like home textiles and readymade garments."

Commenting on this achievement Mr. Deepak Garg, Managing Director of the A B Cotspin India said, "We are delighted to announce this milestone order worth around ₹13 crore for 450 MT of Cotton Yarn, which underscores the growing demand for our high-quality cotton yarn and eco-friendly textile solutions. This achievement not only strengthens our position in domestic and international markets but also significantly contributes to increasing our sales and profitability. At the core of our operations is a steadfast commitment to sustainability and innovation—whether through advanced recycling practices, renewable energy utilization, or resource optimization. As we expand our product range and enhance operational efficiencies, we remain focused on driving long-term growth while making a positive impact on the environment and the textile industry. We expect to achieve Turnover of around ₹350 - ₹400 crore, EBITDA of ₹50-55 crore and PAT of ₹30-35 crore for FY 2025-26"
